

## INVITATION FOR GRANT APPLICATIONS

Launched 10 years ago, the Long-Range Research Initiative (LRI) is one of the major voluntary initiatives of the European chemical industry to support its competitiveness and innovation potential. LRI aims to identify and fill gaps in our understanding of the hazards posed by chemicals and to improve the methods available for assessing the associated risks.

LRI sponsors high-quality research, published in peer-reviewed journals, and seeks to provide sound scientific advice on which industry and regulatory bodies will draw to respond more quickly and accurately to the public's concerns.

**In the context of its LRI programme, the European Chemical Industry Council (Cefic) is accepting grant applications to carry out research in the area of nanotechnology. Specifically covering:**

### **“Tiered Approach to Testing and Assessment of Nanomaterial Safety to Human Health”**

*Project code: N1*

*Deadline for submission: July 27, 2008.*

**Additional request for proposal will be published shortly in our website. Stay tuned!**

Project specifications, budget details and application forms can be found on the CEFIC LRI website: <http://www.cefic-lri.org>. Only proposals that fit the project specifications and are submitted in the official LRI application form will be considered. Further details should be requested at:

**lri@cefic.be**

CEFIC-LRI, Avenue E. Van Nieuwenhuysse 4, B-1160 Brussels, Belgium.
